

Thank you

Dear CMS Teachers,

We love Central Montessori School. The teachers are so warm and friendly & truly enjoy working with the children. I always feel confident in knowing I am leaving my children in a safe and stimulating environment.

When we learned about the Montessori Method from Ahra, I really liked the fact that it took into account the whole life of the child and not just academics. They teach him to learn how to be a really good person and not just a good student. One of the things they focus on at CMS is to have respect for everyone and the environment. So when we're home or out in the environment, He likes to pick up trash and make sure to recycle. That makes me feel wonderful about what He has learned at CMS.

Thank you

Many thanks to all teachers and school administrators for all their encouragement and guidance they provide, for creating a relaxing learning environment.

From Anusha Gona (Adwaith's Mother)
