

Dear CMS Teachers,

My daughter has attended Central Montessori School since she turned 1 and they have been nothing short of amazing. Transitioning your kids to childcare is a scary moment but CMS made us feel comforted from day 1. The teachers are so nurturing, which I find to be the #1 quality of the school, and coupled with their faith-bathed learning and Montessori concepts, my daughter has really excelled the last 3 years. She has always been shy, but I truly believe the program has brought out the best in her and it is great to see how social she is with the teachers and her friends at school.

During the pandemic, while we are all a bit panicked about childcare, CMS quickly pivoted with virtual options and thoughtful health guidelines which really put my mind at ease for the safety of my child. I cannot emphasize my appreciation for what CMS has offered my daughter the last 3 years she has been enrolled, and I am looking forward to enrolling my son as soon as he is eligible!

Sincerely,  
Michael Chang
